# Overview

The IRS has a concept of constructive receipt for when a taxpayer has payments available as income. For Washington State payments, constructive receipt changes depending on payment method.

- For Warrants, the receipt date is the warrant date.
- **For Electronic Fund Transfers (EFT) the receipt date is the deposit date, which is two business days from the day the batch was released in AFRS.**

**To avoid potential issues, do not make 1099 reportable payments on the last two business days of the year.**

To ensure agencies report all EFT payments in the proper reporting year, agencies will need to run Enterprise Reports. Each agency can choose to run either an Enterprise Reporting - Standard Report or an Enterprise Reporting - Web Intelligence Report to extract the data. It is highly recommended that agencies use the Web Intelligence report.
