Data Source and Notes

The original data source for this document is the U.S. Census Bureau's American Community Survey 1-year Public Use Microdata Sample file. The designation of Congressional Districts of the American Community Survey (ACS) records was performed using a crosswalk between Congressional Districts and Public Use Microdata Areas that are available in the ACS files. The crosswalk was obtained from the Missouri Census Data Center's Geographic Correspondence Engine (<http://mcdc.missouri.edu/websas/geocorr12.html>).

In working with the ACS data, the Office of Financial Management analysts uncovered a significant undercount of Medicaid enrollment in the ACS for Washington starting in 2014, the year the Patient Protection and Affordable Care Act first rolled out Medicaid expansion program. An adjustment was made to the 2014-17 ACS using administrative data from the Medicaid program to account for the undercount of Medicaid.
