Data Sources and Notes

The original data source for this document is the U.S. Census Bureau's American Community Survey 1-year Public Use Microdata Sample file. The designation of Legislative Districts of the American Community Survey (ACS) records was performed using a crosswalk between Legislative Districts and Public Use Microdata Areas that are available in the ACS files. The crosswalk was obtained from the Missouri Census Data Center's Geographic Correspondence Engine (<http://mcdc.missouri.edu/websas/geocorr12.html>).

In working with the ACS data, the Office of Financial Management analysts uncovered a significant undercount of Medicaid enrollment in the ACS for Washington starting in 2014, the year the Patient Protection and Affordable Care Act first rolled out Medicaid expansion program. A decision was made to adjust for the Medicaid undercount in the 2014-17 ACS using administrative data from the Medicaid program to account for the Medicaid undercount.

For this document, estimates for 2012-13 were calculated using unadjusted ACS data and estimates for 2014-17 were calculated using ACS data adjusted for Medicaid undercount.
