### NON-BUDGETED LOCAL FUND SUMMARY

Note: These summaries report the projections for the system as a whole, and summarize specific revenues that will accrue individually to the colleges. The system does not allocate these funds to the colleges. Instead, as specified by statute, the revenues are retained by the college and dedicated for specific purposes. They are not transferrable among different institutions. Additionally, this chart, in the format requested, does not differentiate between restricted or reserved fund balance and unrestricted or unreserved fund balance.
