

# Notes on Census Corrections and the Differences between the 2000 Federal Census Public Law 94-171 Counts and the Official 2000 Population Estimates by the Office of Financial Management

Last revised on February 9, 2004 to reflect Census 2000 correction for McCleary in Grays Harbor County

The Office of Financial Management (OFM) is responsible for April 1 population determinations that are used for state revenue allocations to local governments and in selected state programs requiring population as a criterion for funding and/or administration. Population counts used by OFM in 2000 may differ from the 2000 federal census counts. Differences are noted below:

## I. Corrections to the 2000 Federal Counts Due to Misallocation of Housing Units and/or Group Quarters

Revised federal census numbers are cumulative for areas that have more than one correction (Lakewood, Woodinville, King County).

Sources of change in population and housing counts are labeled as follows;

(A): Population and housing units added to the cities due to annexations through April 1, 2000;

(B): Special city April 1, 2000 censuses used in place of the federal censuses; and,

(F): Census Bureau's corrections to the federal counts due to misallocation of population and housing units. State totals may change if there are federal corrections to county population and housing units.
