

HIGHER EDUCATION PERSONNEL BOARD

Specification for Class

Class Code: 4560

MILKER

Abolished Effective February 10, 2006

DEFINITION

Milk and maintain a dairy herd.

TYPICAL WORK

Milk cows either by hand or machine;

Sanitize the milking apparatus and system;

Clean the milking area and holding pen;

Groom and wash cows and inspect for evidence of injury or disease;

Feed concentrate including experimental rations;

Record milking and other management and research information on individual cows;

Perform related duties as required.

MINIMUM QUALIFICATIONS

Six months' experience in milking and modern dairy farm work.

Equivalent education/experience will substitute for all minimum qualifications except when there are legal requirements, such as a license/certification/registration.

Examination Requirements:

A job element examination (including written, E & T and oral components) scored on the basis of job related experience, training, skill, ability and other elements which are established through job analysis.

New Class: 1-3-73

Revise MQ: 7-2-90
