

## HIGHER EDUCATION PERSONNEL BOARD

Specification for Class

Class Code: 4752

### ENVIRONMENTAL CONTROL TECHNICIAN III

**Abolished Effective June 1, 2005**

#### BASIC FUNCTION

Coordinate projects related to environmental technical work in office, laboratory, or campus in a variety of job areas.

#### DISTINGUISHING CHARACTERISTICS

Senior-level class of series. Coordinate established programs; e.g., collection of hazardous chemical waste, vector control, sample collection, and routine field measurements.

#### TYPICAL WORK

Conduct assigned investigations involving hazardous chemicals, radiation safety, fire protection, general safety, vector control, and environmental sanitation;

Develop and draft plans and specifications for projects;

Compute data;

Operate direct service programs related to hazardous chemical disposal, radiation safety, fire protection and general safety, and environmental sanitation; assist in surveys and inspections of sources;

Examine and analyze campus environmental problems;

May direct the work of assigned personnel;

Perform duties of Environmental Control Technician II;

Perform related duties as required.

#### MINIMUM QUALIFICATIONS

A Bachelor's Degree in science, engineering, or related field and one year of experience as an Environmental Control Technician II or equivalent; OR two years of experience as an Environmental Control Technician II.

Equivalent education/experience will substitute for all minimum qualifications except when there are legal requirements, such as a license/certification/registration.
